DARTMOUTH COLLEGE

Financial Statements

2012 - 2013

KPMG LLP Suite 400 356 Mountain View Drive Colchester, VT 05446

Independent Auditors' Report

The Board of Trustees Dartmouth College:

We have audited the accompanying financial statements of Dartmouth College (The College), which comprise the statement of financial position as of June 30, 2013 and 2012, and the related statements of activities, and cash flows for the years then ended, and the statement of operating expenses for the year ended June 30, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Dartmouth College as of June 30, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Other Matter

As described in Note L, the College's financial statements do not reflect certain interests in third party trusts for which it does not have sufficient current information with respect to the fair value of such trusts. In our report dated November 10, 2012, we expressed a qualified opinion on the College's 2012 financial statements because we were unable to examine evidence regarding the fair value of certain unrecognized interests in third party trusts. In 2013, the American Institute of Certified Public Accountants issued interpretive guidance clarifying when interests in third party trusts should be recorded by not-for-profit organizations. Accordingly our opinion on the 2012 financial statements, as presented herein, is different from that expressed in our previous report.

Notes to Financial Statements

A. Summary of Significant Accounting Policies

Description of Organization

Dartmouth College (Dartmouth) is a private, nonprofit, co-educational, nonsectarian institution of higher education with approximately 4,193 undergraduate and 2,084 graduate students. Established in 1769, Dartmouth includes the four-year undergraduate college, with graduate schools of business, engineering, and medicine, and several graduate programs in the Arts and Sciences.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis. Dartmouth's financial statements include the accounts of its wholly owned subsidiaries and certain affiliated organizations over which it has financial control. The wholly owned subsidiaries and financially controlled entities include real estate corporations, which own real estate in the local area; the Dartmouth Education Loan Corporation (DELC), which provides scholarships and low-cost loans to Dartmouth students who are unable to finance their education through other sources; and various separately incorporated foundations, which support activities that enrich the experience of students and the community.

In accordance with U.S. generally accepted accounting principles (GAAP), net assets, revenues, gains, and losses are classified into three categories: unrestricted, temporarily restricted, or permanently restricted. Unrestricted net assets include all resources that are not subject to donor-imposed restrictions and therefore may be used for any purpose in furtherance of Dartmouth's mission. Under the authority of Dartmouth's management and Board of Trustees, in order to support Dartmouth's strategic initiatives, all or a portion of unrestricted net assets may be set aside in segregated Dartmouth-designated reserve accounts and earmarked for use in future years by specific departments, cost centers, or the professional schools, to cover program costs or contingencies. These Dartmouth-designated net assets include funds designated for operating initiatives, facilities, and long-term quasi-endowment. The purposes for which Dartmouth-designated net assets are earmarked may be changed under the authority of Dartmouth's management and Board of Trustees. The use of designated net assets is at the discretion of the responsible department. All expenses are recorded as a reduction of unrestricted net assets.

Temporarily restricted net assets carry donor-imposed restrictions on the expenditure or other use of contributed funds. Temporary restrictions may expire either because of the passage of time or because actions are taken to fulfill the restrictions. Temporarily restricted net assets include unexpended endowment return, unexpended restricted use gifts, term endowment funds, loan funds, uncollected pledges, and life income and similar funds. Donor-restricted resources intended for capital projects are released from their temporary restrictions and presented as unrestricted support when the related asset is placed in service. Temporarily restricted endowment distribution and donor-restricted gifts which are received, and either spent or deemed spent within the same fiscal year, are reported as unrestricted.

Permanently restricted net assets are those that are subject to donor-imposed restrictions which will never lapse, thus requiring that the net assets be retained permanently. Based upon a legal interpretation of New Hampshire State Law, Dartmouth determined that appreciation on restricted endowment funds should be classified as temporarily restricted net assets until such time as the appreciation is appropriated by the Board of Trustees. Investment return from endowment activities that has been appropriated by Dartmouth's Board of Trustees is presented as an increase in operating or non-operating activities according to the unrestricted or temporarily restricted nature of the donor's intended use of the funds. In the case of quasi-endowment funds designated for long-term investment by Dartmouth, investment return that has been appropriated by Dartmouth's Board of Trustees is presented as an increase in unrestricted operating or non-operating activities, depending upon Dartmouth's intended use of the funds. Permanently restricted net assets consist of the original principal of endowment gifts, loan funds, and certain pledges.

Comparative Financial Information

The 2013 financial statements are presented with certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with Dartmouth's financial statements for the year ended June 30, 2012, from which the summarized information was derived. Certain prior year amounts have been reclassified to conform to the fiscal year 2013 presentation.

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant estimates in these financial statements are the fair value of investments, interest rate swap agreements and bonds payable (for disclosure only), pension and postretirement benefit obligations, conditional asset retirement obligations, liabilities for self-insured programs and split-interest agreements, and allowances for uncollectible accounts and pledges receivable. Actual results could differ materially from these estimates, particularly during periods of investment and/or interest rate volatility.

Statement of Activities

Operating activities presented in the Statement of Activities consist of revenues earned, endowment net investment return appropriated by Dartmouth's Board of Trustees, and expenses incurred in conducting Dartmouth's programs and services. Auxiliary enterprises, primarily the operation of residence halls, dining services, and recreational facilities, are included in operating activities. Expenses such as development, public affairs, and central services and administration are reported as general institutional services. Depreciation and facilities operations and maintenance expenses are allocated to functional classifications of expenses based on the square footage of each building. Interest expense is allocated to functional classifications of expenses based on the use of each building that has been debt financed.

Non-operating activities presented in the Statement of Activities consist of gifts, grants, investment income, other earnings, and endowment investment return appropriated by Dartmouth's Board of Trustees for loan programs and the construction, purchase or sale of capital assets, non-capitalizable construction in progress, net change in life income and similar split-interest agreements, the net change in pledges receivable, the net change in the estimated value of interest rate swap agreements, and postretirement benefit changes other than net periodic benefits costs.

Endowment activities presented in the Statement of Activities consist of gifts that are restricted by donors to invest in perpetuity, amounts designated by Dartmouth's management and Board of Trustees for long-term investment, the net investment return on these invested funds, and the annual distribution of an amount appropriated by Dartmouth's Board of Trustees to support operating and non-operating activities. Other endowment activities include increases in endowment net assets from certain matured split-interest agreements.

Endowment and non-operating activities also include transfers of net assets that occur when donors change the restrictions on certain gifts or when Dartmouth changes the designation of unrestricted funds.

Cash and Cash Equivalents

Cash and cash equivalents consist principally of U.S. treasury funds, money market accounts, certificates of deposit, commercial paper, and liquid short-term investments with maturities of 90 days or less at the date of acquisition. Cash and cash equivalents are carried at cost, which approximates fair value.

Tuition and Fees and Student Scholarships

Tuition and fees revenue is recognized in the fiscal year in which substantially all of the academic program occurs. Tuition and fees revenue from undergraduate enrollment represents approximately 66 percent of tuition and fees revenue. Student scholarships provided by Dartmouth are presented in the Statement of Activities as a reduction in tuition and fees revenue. In addition, Dartmouth acts as an agent for recipients of scholarships from other sponsors in the amounts of \$5,822,000 and \$5,854,000 for the years ended June 30, 2013 and 2012, respectively, which are not presented in the Statement of Activities.

Dartmouth admits students to its undergraduate program without regard to financial need. The financial aid program assists all students with demonstrated need, defined in accordance with a uniform formula, by providing a mix of scholarships, loans and/or employment designed to cover costs of attendance when combined with student and family contributions, based on ability to pay.

Notes to Financial Statements

Sponsored Research Grants and Contracts

Revenues from government and private sponsored research grants and contracts are recognized when the direct costs associated with the sponsored program are incurred. Revenue from the reimbursement of facilities and administrative costs incurred by Dartmouth on U.S. government grants and contracts is based upon negotiated predetermined cost rates through June 30, 2015. Dartmouth recovered facilities and administrative costs of approximately \$44,241,000 and \$44,082,000 in the years ended June 30, 2013 and 2012, respectively.

Taxes

Dartmouth is exempt from federal income taxes under Section 501(c)(3) of the U.S. Internal Revenue Code (the Code), except with regard to unrelated business income, which is taxed at corporate income tax rates. Dartmouth is also subject to state and local property tax on the value of dormitories and dining and kitchen facilities in excess of \$150,000, as well as on the value of its off-campus rental properties, commercial properties, and other real estate holdings to the extent they are not used or occupied for Dartmouth's tax exempt purposes. Certain Dartmouth real estate entities are exempt from federal income tax under Sections 501(c)(2) and 501(c)(25) of the Code. As of June 30, 2013, tax years ended June 30, 2009 through June 30, 2012, remain open and are subject to federal and state taxing authority examination. Dartmouth believes it has taken no significant uncertain tax positions.

Affiliation with Dartmouth-Hitchcock Medical Center

Dartmouth, through the Geisel School of Medicine at Dartmouth (Geisel), is a member of the Dartmouth-Hitchcock Medical Center (DHMC), a confederation of health care organizations intended to coordinate medical education and health care delivery for the residents of New Hampshire and Vermont. DHMC is a nonprofit, tax-exempt corporation organized under New Hampshire State Law. The other members of DHMC are: (i) Mary Hitchcock Memorial Hospital (Hitchcock Hospital), (ii) Dartmouth-Hitchcock Clinic (Clinic), and (iii) Veterans Administration Medical Center of White River Junction, Vermont (VAMC). The staff of the Clinic serves as the primary resource for Geisel clinical faculty, with the Hitchcock Hospital and the VAMC acting as principal sites of clinical instruction for Geisel students. Each member is a separately organized, governed, and operated institution, with Dartmouth having no ownership interest in any other member.

Certain costs, including salaries, facilities use (including construction planning and management, and facilities operation and maintenance), and direct and indirect research, incurred by Geisel and the other members of DHMC are shared among the members based on negotiated allocations of the costs on an annual or project specific basis. The members of DHMC, excluding the VAMC, are also parties to a Condominium Ownership Agreement that governs the ownership and operation of the DHMC facilities. During the years ended June 30, 2013 and 2012, Dartmouth paid approximately \$27.6 million and \$27.4 million, respectively, and received approximately \$28.5 million and \$28.1 million, respectively, in connection with these arrangements.

Insurance

Dartmouth maintains several insurance arrangements with the objective of providing the most cost effective and comprehensive coverage for most insurable risks. Both conventional and alternative insurance coverage approaches, including utilization of appropriate deductible or self-insured retention amounts, are in place to cover trustee errors and omissions and employment practices, crime bond, commercial general and automobile liability, pension trust fiduciary errors and omissions liability, and property losses. Workers' compensation losses are covered by a self-insured retention and excess insurance program. Dartmouth currently participates in three risk retention groups that provide general liability and professional and medical malpractice liability insurance.

Dartmouth's annual premium payments for conventional insurance coverage are included in operating expenses. Estimated liabilities for losses under Dartmouth's deductible and/or self-insurance retention limits are reflected in the Statement of Financial Position, which includes estimates for known losses and for losses incurred but not yet reported. Insurance reserves are based on actuarial analysis and/or estimates of historical loss experience, and while management believes that the reserves are adequate, the ultimate liabilities may be different than the amounts provided.

Notes to Financial Statements

Gifts and Pledges Receivable

Total contributions to Dartmouth include gifts that are received and the net change in pledges receivable during a period. Gifts and pledges are recognized as increases in the appropriate category of net assets in the period the gift or pledge is received. The net change in total pledges is recorded as a net increase (decrease) in non-operating activities in the Statement of Activities. Contributions of capitalizable assets other than cash are recorded at their estimated fair value at the date of gift. Pledges are stated at the estimated present value of future cash flows, net of an allowance for uncollectible amounts. Conditional promises to give are not recognized until the conditions on which they depend are substantially met.

Investments

Investments are reported at estimated fair value. Because many of these investments are not readily marketable, the estimates of fair value involve assumptions and estimation methods which are uncertain, and therefore the estimates could differ from actual results. Purchases and sales of securities are recorded on the trade date, and realized gains and losses are determined on the basis of the average cost of securities sold. Derivative financial instruments held for investment purposes are carried at estimated fair values with resulting gains and losses included in investment return. Cash designated for investment purposes is included in investments and may include money market funds, foreign currency held for investment purposes, and fixed income securities with an original or remaining maturity of three months or less when purchased.

For investments held directly by Dartmouth for which an active market with quoted prices exists, the market price of an identical security is used as reported fair value. Fair values for shares in commingled funds are based on share prices reported by the funds as of the last business day of the fiscal year. Dartmouth's interest in certain other commingled funds and other alternative investment funds is reported at the net asset value (NAV) reported by the fund managers and reviewed by Dartmouth. NAV is used as a practical expedient to estimate the fair value of Dartmouth's interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV.

The framework for measuring fair value utilizes a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical investments as of the reporting date. The type of investment in Level 1 includes actively listed equities, certain short term fixed income securities, and exchange traded and registered funds all held directly by Dartmouth, and excludes listed equities and other securities held indirectly through commingled funds.

Level 2 - Pricing inputs, including broker quotes, are generally those other than exchange quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies.

Level 3 - Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. Investments in this category generally include alternative investments and partnership interests.

For those investments reported using NAV as a practical expedient, classification in Level 2 or 3 is based on Dartmouth's ability to redeem its interest at or near the date of the statement of financial position. If the interest can be redeemed in the near term, the investment is classified in Level 2.

Total investment return (interest, dividends, rents, royalties, and net realized and unrealized gains and losses) earned by Dartmouth's endowment investments is included in endowment activities, while the net income earned by the non-endowment investments is included in other operating and non-operating income. Fees charged by external investment managers are generally based on contractual percentages of the fair market value of assets under management or on annual total investment return and are, in most cases, netted against investment return. However, certain expenses paid directly by Dartmouth for investment management and custody services, including certain internal costs, amounted to approximately \$12,970,000 and \$12,026,000 for the years ended June 30, 2013 and 2012, respectively, and have been netted against endowment return and other operating and non-operating income in the accompanying Statement of Activities.

Notes to Financial Statements

Endowment

Dartmouth's endowment and similar funds consist of gifts restricted by donors and unrestricted net assets designated by management and the Board of Trustees for long-term support of Dartmouth's activities, and the accumulated investment return on these gifts and designated net assets. Accumulated investment return consists of endowment net investment return that has not been appropriated by the Board of Trustees for expenditure to support Dartmouth's operating and non-operating activities. Generally, only a portion of accumulated net investment return is made available for spending each year in accordance with a Board of Trustees-approved endowment utilization policy and New Hampshire State Law. However, certain donor restricted endowment funds do allow for the expenditure of principal, and Dartmouth-designated endowment funds are unrestricted net assets that may be re-designated for authorized expenditures.

Giving consideration to the New Hampshire Uniform Prudent Management of Institutional Funds Act (UPMIFA), Dartmouth classifies as permanently restricted net assets all endowment funds that must be retained permanently in accordance with stipulations imposed by a donor at the time of a gift, plus the original value of assets donated to permanent endowment, along with any investment earnings that are directed by the donor to be reinvested in perpetuity (i.e., historic book value). The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA.

Unrestricted endowment net assets include Dartmouth funds and certain unrestricted gifts from donors, and any accumulated investment return thereon, which may be expended; however, by trustee or management designation, these net assets may remain invested in the endowment for the long-term support of Dartmouth activities. Investment return on unrestricted endowment net assets and the annual distribution of a portion of accumulated investment return to operating and non-operating activities are presented as changes in unrestricted net assets in the Statement of Activities. Temporarily restricted endowment net assets include certain expendable endowment gifts, and any retained income and appreciation thereon, which are restricted by the donor to a specific purpose or by law. When the temporary restrictions on these funds have been met, the gifts ordinarily remain in the endowment by trustee designation to continue supporting the same activities as those specified by the donors, but the net assets are reclassified to unrestricted endowment net assets. Investment return on temporarily and permanently restricted net assets are generally presented as changes in temporarily restricted net assets in the Statement of Activities.

Split-Interest Agreements

Certain donors have established irrevocable split-interest agreements with Dartmouth, primarily charitable gift annuities, pooled life income funds, and irrevocable charitable remainder trusts, whereby the donated assets are invested and distributions are made to the donor and/or other beneficiaries in accordance with the agreement for a specified period of time, after which time the remaining assets and future investment return are retained by Dartmouth. At the discretion of the donor, Dartmouth may or may not serve as trustee for the split-interest agreement.

Dartmouth has recorded the estimated fair value of the investments associated with irrevocable split-interest agreements and an estimated liability, using a discount rate of 1.2% for FY13 and 1.2% for FY12, for the net present value of the future cash outflows to beneficiaries of the agreements for which Dartmouth serves as trustee. In the case of irrevocable split-interest agreements whose assets are held in trusts not administered by Dartmouth (third-party charitable trusts), a receivable for Dartmouth's beneficial interest is established when Dartmouth is notified of the trust's existence and when the third-party trustee has provided Dartmouth with sufficient reliable information to estimate the value of the receivable, which the College considers a level 3 measurement. Dartmouth reports the net change in split-interest agreements as a non-operating change in net assets in the Statement of Activities. See Note L for additional discussion of third-party charitable trusts.

Land, Buildings, Equipment, and Construction in Progress

Land, buildings, equipment, and construction in progress are recorded at cost at the date of acquisition or, if acquired by gift, at the estimated fair value as of the date of the gift. Purchases, construction, and renovations of assets which exceed Dartmouth's specified dollar threshold and have a useful life greater than one year are capitalized, while scheduled maintenance and minor renovations of less than that amount are charged to operations.

Land, buildings, and equipment are reflected net of accumulated depreciation calculated on a straight-line basis over the following estimated economic lives.

Notes to Financial Statements

Buildings and building components	10 - 50 years
Depreciable land improvements	15 - 20 years
Equipment	5 - 20 years

Depreciation expense for facilities that are primarily used for sponsored research is based on the estimated economic lives of each component.

Collections

Dartmouth's collections include works of art, literary works, historical treasures, and artifacts that are maintained in its museum and libraries. These collections are protected and preserved for public exhibition, education, research, and the furtherance of public service. Each of the items is cataloged, preserved, and cared for, and activities verifying their existence and assessing their condition are performed continuously. The collections are subject to a policy that requires proceeds from their sale to be used to acquire other items for collections.

The collections, which were acquired through purchases and contributions since Dartmouth's inception, are not recognized as assets in the Statement of Financial Position. Purchases of collection items are recorded as decreases in unrestricted net assets in the year in which the items are acquired or in temporarily restricted net assets if the assets used to purchase the items are restricted by donors. Contributed collection items are not recorded in the financial statements.

B. Receivables and Other Assets

Receivables and other assets consisted of the following at June 30 (in thousands):

	2013			2012	
Student accounts	\$	2,334	\$	1,426	
Sponsored research grants and contracts		20,162		29,489	
Other accounts		44,008		56,757	
Notes and student loans		75,039		83,539	
Less: allowance for uncollectible accounts		(2,979)		(2,743)	
Receivables, net	\$	138,564	\$	168,468	
Prepaid costs, inventories, and other assets		15,200		15,360	
Total receivables, and other assets, net	\$	153,764	\$	183,828	

Federally sponsored student loans with mandated interest rates and repayment terms are subject to significant restrictions as to their transfer and disposition. Amounts received from the Federal government to fund a portion of the Perkins student loans are ultimately refundable to the Federal government and are classified as government advances for student loans in the Statement of Financial Position. Due to the nature and terms of student loans funded by the Federal government, and restricted and unrestricted Dartmouth funds, it is not practical to estimate the fair value of such loans. All other receivables are carried at estimated net realizable value.

C. Gifts and Pledges Receivable

Gifts and pledge payments received during the years ended June 30 were as follows (in thousands):

		 2012	
Gifts to support operations	\$	90,332	\$ 84,162
Gifts for:			
Facilities and student loans		23,626	25,682
Other restricted uses		2,713	3,020
Endowment		28,047	49,697
Split-interest agreements	-	11,105	 2,163
Total gifts and pledge payments	\$	155,823	\$ 164,724

Notes to Financial Statements

Unconditional pledges as of June 30 are expected to be realized in the following periods, discounted at rates ranging from 1.4% to 6.2% (in thousands):

		 2012	
In one year or less	\$	60,024	\$ 75,942
Between one year and five years		47,921	58,831
Six years and after		1,531	 20,903
Gross pledges receivable	\$	109,476	\$ 155,676
Less: present values discount		(3,083)	(5,415)
Less: allowance for uncollectible pledges		(11,682)	 (7,485)
Pledges receivable, net	\$	94,711	\$ 142,776

The change in net pledges receivable is presented as a non-operating activity in the Statement of Activities.

D. Investments

Investments at fair value consisted of the following at June 30 (in thousands):

	2013			2012	
Endowment investments	\$	3,802,047	\$	3,571,135	
Split-interest agreement investments		111,744		99,768	
Operating and other investments		810,454		704,861	
Total investments	\$	4,724,245	\$	4,375,764	

The following table summarizes Dartmouth's assets and liabilities that are reported at fair value by their fair value hierarchy classification as of June 30, 2013 (in thousands):

							Redemption	Days'
	_	Level 1	 Level 2	_	Level 3	 Total	or Liquidation	Notice
Assets:

¹ Fixed income includes privately held bonds.

The Fixed Income portfolio includes strategies based on capital preservation and predictable yield as well as more opportunistic strategies focused on generating return through price appreciation. These strategies generally include corporate debt securities, government securities, mortgage backed and asset backed securities and other financial instruments. The structures of these investments include directly held securities as well as investments through commingled funds.

The Global Equity portfolio includes managers who primarily invest in public long-only and long/short equity securities with portfolios that are directionally exposed to the market. The structures of these investments include directly held securities as well as investments through commingled funds.

The Marketable Alternative Strategies portfolio includes investments in commingled funds whose managers employ discrete and blended strategies, including long/short equity, absolute return, market neutral, distressed and credit strategies. Funds with marketable alternative strategies generally hold securities or other financial instruments for which a ready market exists, and may include stocks, bonds, put or call options, swaps, futures, currency hedges, and other financial instruments.

Dartmouth also invests in venture capital, private equity, real estate, other real assets, and other debt related strategies through private limited partnerships, which are illiquid. These investments often require the estimation of fair value by the general partner in the absence of readily determinable market values. The private portfolio is based primarily in the United States but includes managers who may invest globally. Real Estate investments also include real estate investment trust securities held through publically traded mutual funds as well as directly held real estate which is included in the endowment and is reported at fair value. Other real asset investments, in addition to limited partnerships, include an exchange traded fund with underlying exposure to commodities.

² US equity includes funds that may have restrictions on the ability to fully redeem up to five years, excluding special investments and other securities that are non-marketable.

³ Marketable alternative strategies include two funds having initial lock-ups expiring on or before April 2014. Other funds may have restrictions on the ability to fully redeem up to three years, excluding illiquid securities and special investments.

Notes to Financial Statements

The following tables present Dartmouth's activity for the fiscal years ended June 30, 2013 and 2012 for investments measured at fair value in Level 3 (in thousands):

		Marketable		Private				
		Alternative	Ε	Equity/Venture	Real			
		Strategies		Partnerships	 Assets	_	Other Assets	 Total
Balance as of June 30, 2012	\$	689,325	\$	961,640	\$ 650,290	\$	213,201	\$ 2,514,456

Unrealized gain (loss) on investments	_	(30,059)		26,118	 81,642	 27,303	 105,001
Balance as of June 30, 2012	\$	689,325	\$	961,640	\$ 650,290	\$ 213,201	\$ 2,514,456

Included in Other Assets in the above tables are fixed income, global equity, and other investments.

Dartmouth owns an interest in each alternative investment fund rather than in the securities underlying each fund, therefore, it is generally required to categorize such investments as Level 2 or 3 based on the liquidity of the fund, even though the underlying securities may be readily marketable. Also, the level in the fair value hierarchy in which each fund's fair value measurement is classified is based on the lowest level input that is significant to the fund in its entirety (e.g., a fund with a mix of underlying Level 1 and Level 3 investments would be classified entirely as a Level 3 investment). Accordingly, the inputs or methodology used to value or classify investments for financial reporting purposes is not necessarily an indication of the risk associated with investing in those investments.

At June 30, 2013, Dartmouth's outstanding commitments to limited partnerships totaled \$437,444,000. The anticipated draw down for these commitments is typically between 1 and 5 years with remaining fund lives typically between 1 and 12 years. The structure of these investments is such that there is no ability to redeem, and therefore are illiquid.

From time to time Dartmouth enters into foreign currency forward contracts and government bond futures to efficiently manage portfolio exposures to global currencies and interest rates. These instruments may be used to hedge the portfolio from unwanted currency and interest rate risk, but also to efficiently implement active duration and relative value currency strategies. The notional value of the contracts may vary significantly based on the expirations and/or initiation of these contracts as of June 30. At June 30, 2013 and 2012, Dartmouth held forward contracts to buy foreign currencies in the amount of \$12,554,000 and \$9,225,000, respectively, and to sell foreign currencies in the amount of \$7,482,000 and \$1,285,000, respectively. The difference between the estimated notional value of open futures contracts to sell and purchase securities was a net long position of \$18,551,000 and net short position \$11,644,000 as of June 30, 2013 and 2012, respectively. Dartmouth is obligated to pledge to the appropriate broker cash or securities to be held as collateral, as determined by exchange margin requirements for futures contracts held. At June 30, 2013 and 2012, the market value of Dartmouth's pledged collateral on futures contracts was \$965,000 and \$925,000, respectively.

Credit default swaps are used to simulate long or short positions or to reduce credit risk where exposure exists. The buyer of a credit default swap is obligated to pay to the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon occurrence of a contracted credit event. As of June 30, 2013 and 2012, the total notional amount of credit default swap contracts for buyer protection was \$9,529,000 and \$11,624,000, respectively and the notional amount

Notes to Financial Statements

related to sell protection was \$3,247,000 and \$28,509,000, respectively. The fair value of the buy contracts at June 30, 2013 and 2012 were approximately (\$67,000) and \$1,155,000, respectively and the sell contracts was (\$217,000) and (\$1,846,000), respectively, and are included in the Statement of Financial Position as investments at fair value. At June 30, 2013 and 2012 the losses on the buy contracts were \$34,000 and \$310,000, respectively and sell contracts \$107,000 and \$342,000, respectively, and are presented in the operating and non-operating sections of the Statement of Activities.

From time to time Dartmouth enters into interest rate swap contracts to efficiently manage portfolio exposures to interest rates. These instruments may be used to hedge the portfolio from unwanted interest rate risk, but also to efficiently implement active duration strategies. The notional amount of contracts that pay based on fixed rates and received based on variable rates was \$15,100,000 at June 30, 2013. The fair value of the contracts at June 30, 2013 was \$274,000 and is included in the Statement of Financial Position as investments at fair value. The gain on the contacts was \$274,000 and is presented in the operating and non-operating sections of the Statement of Activities

E. Endowment

The changes in fair value of net assets held in endowment and similar funds for the years ended June 30 were as follows (in thousands):

	Uni	estricted_		Temporarily Restricted	F	Permanently Restricted		Total
Endowment net assets, June 30, 2012	\$	833,511	\$	1,700,362	\$	952,511	\$	3,486,384
Investment return:								
Investment income		7,432		24,078		-		31,510
Net gain in fair value:								
Realized		63,875		201,499		-		265,374
Unrealized		25,848		80,972		1,058		107,878
Total investment return		97,155		306,549		1,058		404,762

Other changes include additions to the endowment from the maturity of split-interest agreements and net transfers resulting from changes in donor restrictions or Dartmouth designations.

Included in temporarily restricted endowment net assets at the end of the year is the remaining amount of expendable accumulated appreciation on permanent endowment funds of \$1,536,709,000 and \$1,401,622,000 at June 30, 2013 and 2012, respectively.

Notes to Financial Statements

Endowment net assets consist of the following as of June 30, 2013 (in thousands):

			Temporarily]	Permanently	
	Ur	restricted	 Restricted		Restricted	 Total
Donor-restricted endowment funds	\$	(12)	\$ 1,783,681	\$	984,369	\$ 2,768,038
Board-designated endowment funds		894,607	 70,951			 965,558
Total endowment net assets	\$	894,595	\$ 1,854,632	\$	984,369	\$ 3,733,596

Endowment net assets consist of the following as of June 30, 2012 (in thousands):

			Temporarily	P	ermanently	
	Ur	restricted	 Restricted		Restricted	 Total
Donor-restricted endowment funds	\$	-	\$ 1,633,792	\$	952,511	\$ 2,586,303
Board-designated endowment funds		833,511	 66,570			 900,081
Total endowment net assets	\$	833,511	\$ 1,700,362	\$	952,511	\$ 3,486,384

From time to time, the fair values of assets associated with individual donor restricted endowment funds may fall below the level that the donor or UPMIFA requires to retain as a fund of perpetual duration. In accordance with GAAP, events of this nature are reported as reductions in unrestricted net assets and were (\$12,000) and \$0 as of June 30, 2013 and 2012, respectively. These events were a result of market declines since the endowment funds were established. A Board of Trustees policy limits the distribution from these funds to current income only.

Dartmouth employs a total return endowment utilization policy that establishes the amount of investment return made available for spending each fiscal year. The amount appropriated for expenditure each year is independent of the actual return for the year, but the appropriated amount cannot exceed the total accumulated return in an individual fund at the time of distribution. The Board approves the formula that determines the amount appropriated from endowment each year. Investment return earned in excess of the amount appropriated annually is reinvested in the funds, but can be appropriated in future years in accordance with the utilization policy. The net appreciation on most of the permanently and temporarily restricted endowment funds is reported together with temporarily restricted net assets until such time as all or a portion of the appreciation is appropriated for spending in accordance with the utilization policy and applicable state law.

The overall investment performance objective for the endowment is to generate real (inflation-adjusted) returns net of investment expenses sufficient to support Dartmouth's current operating needs while maintaining the long-term purchasing power of the endowment. Historical averages indicate that an annual return between 8% - 10% is needed to meet this goal. The Investment Committee of the Board of Trustees has determined that a well-diversified mix of assets offers the best opportunity for maximum return with acceptable risk over time. Dartmouth relies on a total return strategy in which investment returns are achieved through both capital appreciation (both realized and unrealized) and current yield (interest and dividends). Investment decisions are made with a view toward maximizing long-term return opportunities while maintaining an acceptable level of investment risk and liquidity.

F. Land, Buildings, Equipment, and Construction in Progress

Land, buildings, equipment, and construction in progress balances at June 30 were as follows (in thousands):

	 2013			
Land	\$ 19,082	\$	19,090	
Buildings	1,124,809		1,011,851	
Land improvements	109,087		98,601	
Equipment	 281,520		268,719	
Land, buildings, and equipment	\$ 1,534,498	\$	1,398,261	
Less: accumulated depreciation	(659,012)		(604,284)	
Construction in progress	 68,841		133,717	
Total net book value	\$ 944,327	\$	927.694	

Notes to Financial Statements

Dartmouth has conditional asset retirement obligations arising from legal obligations to perform certain activities in connection with the retirement, disposal, or abandonment of assets, including asbestos abatement, leasehold improvements, hazardous materials, and equipment disposal and cleanup. The liability was initially recorded at fair value, and is adjusted for accretion expense, and changes in the amount or timing of cash flows. The corresponding asset retirement costs are capitalized as part of the carrying values of the related long-lived assets and depreciated over the useful lives of the assets

G. Bonds, Mortgages, and Notes Payable

Included in interest and amortization presented on the Statement of Operating Expenses is interest expense on debt (including payments on interest rate swap agreements) used to finance facilities projects of \$24,324,000 and \$22,772,000, and on other operating indebtedness of \$152,000 and \$129,000 for the years ended June 30, 2013 and 2012, respectively. In addition, interest paid on debt used to finance facilities projects of \$464,000 and \$1,696,000 was capitalized in connection with various construction projects for the years ended June 30, 2013 and 2012, respectively.

Interest expense on debt used to finance student loans totaled \$1,406,000 and \$1,318,000 for the years ended June 30, 2013 and 2012, respectively, and is presented as a deduction from other non-operating earnings in the Statement of Activities. Interest expense on other non-operating indebtedness totaled \$23,460,000 and \$17,926,000 for the years ended June 30, 2013 and 2012, respectively, and is presented as a deduction from other non-operating earnings in the Statement of Activities. Interest expense on mortgages and debt used to finance endowment-related real estate projects totaled \$2,625,000 and \$2,623,000 for the years ended June 30, 2013 and 2012, respectively, and is presented as a deduction in endowment net investment return in

Notes to Financial Statements

the Statement of Activities. Total interest expense included in the Statement of Activities is \$51,967,000 and \$44,768,000 for the years ended June 30, 2013 and 2012, respectively.

The aggregate amounts of principal due for each of the next five years ending June 30 and thereafter are as follows (in thousands):

June 30	Prin	cipal Due
2014	\$	32,418
2015		8,884
2016		9,157
2017		27,628
2018		9,870
Thereafter		1,034,590
Total	\$	1,122,547

Principal due after June 30, 2018, includes the following "balloon" payments due on Dartmouth's indebtedness (in thousands):

June 30	Indebtedness	P	ayment
2019	NHHEFA Series 2009 bonds	\$	7,920
2019	2009 Series A bonds	\$	250,000
2027	NHHEFA Series 2007A bonds	\$	31,820
2028	NHHEFA Series 2009 bonds	\$	32,190
2028	NHHEFA Series 2007A bonds	\$	52,060
2029	NHHEFA Series 2009 bonds	\$	20,000
2031	NHHEFA Series 2007A bonds	\$	5,120
2032	NHHEFA Series 2002 bonds	\$	101,000
2036	NHHEFA Series 2007B bonds	\$	18,000
2039	NHHEFA Series 2009 bonds	\$	138,765
2041	NHHEFA Series 2007B bonds	\$	57,000
2041	NHHEFA Series 2007C bonds	\$	30,000
2042	2012 Series A bonds	\$	70,000
2043	2012 Series B bonds	\$	150,000

The estimated fair value of the bonds was approximately \$1,070,035,000 and \$1,146,338,000 as of June 30, 2013 and 2012, respectively. The fair value for fixed-rate debt is based on estimates of the prevailing market yield and resulting price for each maturity of debt. The market yield is impacted by several factors including credit, length of maturity, coupon, and optional redemption provisions. Variable rate debit is valued at par since the rate is reset frequently and the bonds are puttable by the investor and callable by the borrower at any time. The College considers this to be a Level 2 measurement.

The NHHEFA bonds are a general obligation collateralized only by Dartmouth's pledge of full faith and credit and by funds held from time to time by the trustee for the benefit of the holders of the bonds under the respective bond resolutions. Dartmouth has agreed to certain covenants with respect to encumbrance or disposition of its core campus.

During fiscal year 2009, Dartmouth entered into six interest rate swap agreements. Information related to these interest rate swap agreements as of June 30, 2013, including the fixed interest rate paid by Dartmouth and percent of LIBOR BBA (1 month) received on the notional principal, is presented in the table below (in thousands):

		Fixed	% of
Expiration	Notional	Interest	LIBOR
Date	 Amount	Rate %	BBA
06/01/2032	\$ 100,000	3.75	67
06/01/2041	\$ 100,000	3.73	70
06/01/2027	\$ 31,940	3.77	72
06/01/2028	\$ 52,695	3.78	72
06/01/2042	\$ 100,000	3.73	70
06/01/2043	\$ 165,000	3.74	70

Notes to Financial Statements

The fair value of these agreements at June 30, 2013 and 2012, based on various factors contained in the interest rate swap agreements and certain interest rate assumptions, was approximately \$133,222,000 and \$216,306,000, respectively, and considered a level 2 measurement. The decrease of \$83,084,000 in the liability for the year ended June 30, 2013 is presented as an unrealized gain and the increase of \$126,903,000 in the liability for the year ended June 30, 2012 is presented as an unrealized loss in the non-operating section of the Statement of Activities. Net payments or receipts under the swap agreements associated with facilities debt are reflected as interest expense. These financial instruments involve counter-party credit exposure.

Dartmouth maintains stand-by bond purchase agreements totaling approximately \$380,000,000 to provide alternative liquidity to support its variable rate bonds. There were no amounts outstanding at June 30, 2013 and 2012 under these agreements. Dartmouth has a \$75,000,000 line of credit with a maturity date of December 29, 2014. There have been no borrowings under this line of credit.

H. Pension and Other Employment Related Obligations

Liabilities for retirement and postretirement medical benefits, salaries, wages, and other benefits under employment agreements consisted of the following at June 30 (in thousands):

	 2013	 2012
Retirement and postretirement benefits	\$ 242,222	\$ 289,168
Compensated absences, severance plans, and other commitments	18,518	16,630
Self-insured benefits	 11,710	 10,182
Total employment related obligations	\$ 272,450	\$ 315,980

In fiscal year 1998, Dartmouth revised its pension benefit for staff and non-union service employees, giving each participant a one-time option to either remain in the defined benefit plan or enroll in the defined contribution plan effective January 1, 1998. Staff and non-union service employees hired since that date receive retirement benefits under the defined contribution plan. Effective January 1, 2006, all union employees are enrolled in the defined contribution plan.

Dartmouth's postretirement medical benefits consist of medical insurance coverage for retirees. Employees hired prior to July 1, 2009 that are 55 or older and have at least ten consecutive years of service in a benefits-eligible position immediately prior to retirement are currently eligible for Retiree Medical Benefits. Dartmouth currently contributes to the cost of medical benefits based on the employee's annual salary, age, and years of service as of June 30, 2009. Plan benefits currently mirror current employee health benefits for retirees under age of 65. At age 65, the retiree would enroll in the Dartmouth College Medicare Supplement (DCMS) plan. New employees hired on or after July 1, 2009 are eligible to participate in a Retirement Savings Match and are eligible to purchase the retiree group health insurance if they qualify at retirement.

Information pertaining to the pension and postretirement benefits at June 30 include (in thousands):

The following table presents activity for the fiscal year ended June 30, 2013 and 2012 for the defined benefit pension plan investments measured at fair value in Level 3 (in thousands):

	mited nerships
Balance as of June 30, 2012	\$ 4,148
Acquisitions / purchases	173
Distributions / sales	(853)
Investment return	500
Unrealized losses on investments	 (56)
Balance as of June 30, 2013	\$ 3,912
	 mited nerships
Balance as of June 30, 2011	\$ 4,020
Acquisitions / purchases	353
Distributions / sales	(622)
Investment return	211
Unrealized gains on investments	 186
Balance as of June 30, 2012	\$ 4,148

The overall investment strategy of the defined benefit pension plan (the Plan) is to utilize an asset mix that is designed to meet the near and longer term benefit payment obligations of the Plan. Over time, the asset mix may include global equity and fixed income exposures. Global equity exposure is designed to capture the equity market performance of developed markets while fixed income exposure provides a predictable yield as well as a hedge against changing interest rates by holding corporate bonds and other financial instruments. Other types of investments may include private equity, venture capital, and other private real asset partnerships that employ different underlying strategies. Outside investment advisors are utilized to manage the Plan assets and are selected based on their investment style, philosophy, and past performance. Dartmouth's investment office is responsible for managing the asset allocation and investment risk management of the Plan.

Dartmouth makes annual contributions to maintain plan funding on an actuarially recommended basis. Dartmouth currently expects to contribute between \$2 million and \$4 million to the Plan in fiscal year 2014.

Benefit payments, which reflect expected future service, as appropriate, are expected to be paid in each of the next five years ending June 30 and thereafter as follows (in thousands):

	P	ension	Postretirement			
	B	enefits	B	Benefits		
2014	\$	9,800	\$	6,145		
2015		9,500		6,670		
2016		9,500		7,138		
2017		9,400		7,646		
2018		9,200		8,272		
Years 2019 -2023		44,300		51,875		

² This category includes investments in venture capital, private equity, and other real asset funds.

Notes to Financial Statements

Assumed health care cost trend rates have a significant effect on the estimated amounts reported for the postretirement benefit plan. The medical cost trend rates for pre-age 65 and post-age 65 retirees, respectively, are assumed to be 8.2% and 8.0% in year 2014, decrease gradually to 5% and 5.5% in fiscal year 2021 and 2023, respectively, and remain level thereafter. Dartmouth's estimate of postretirement benefit expense and obligations also reflects the impact of the Medicare Prescription Drug Improvement and Modernization Act, which provides for tax-free subsidies to employers that offer retiree medical benefit plans with qualifying drug coverage.

A one percentage point increase (decrease) in assumed health care cost trend rates would have the following effect (in thousands):

Increase (decrease) in total of service and interest cost components	\$ 3,738	\$ (3,252)
Increase (decrease) in postretirement benefit obligation	\$ 43,713	\$ (35,195)

Dartmouth also maintains defined contribution retirement plans for its employees. These benefits are individually funded and are subject to various vesting requirements. Under these arrangements, Dartmouth makes monthly contributions to individual self-directed retirement investment accounts for the participants. These contributions for the years ended June 30, 2013 and 2012 were \$24,721,000 and \$22,846,000, respectively. Dartmouth also maintains deferred compensation plans. The liabilities for the plans are included in pension and other employment related obligations in the Statement of Financial Position.

I. Other Operating Income

The major components of other operating income for the years ended June 30 were as follows (in thousands):

	2013			2012
Medical School clinical services and other support	\$	51,304	\$	51,671
Foreign study and continuing education programs		13,244		12,971
Student activities and other program revenue		11,011		11,429
Athletics revenues		4,523		3,878
Hopkins Center and Hood Museum		1,838		1,412
Other revenues		16,084		25,236
Investment income		33,741		26,768
Total other operating income	\$	131,745	\$	133,365

J. Net Assets

Additional information pertaining to Dartmouth's net assets at June 30 is presented below (in thousands):

		2013							
	Uı	Unrestricted		Temporarily Restricted		Permanently Restricted		Total	
Detail of net assets:	<u></u>								
Operating funds	\$	348,479	\$	77,312	\$	-	\$	425,791

K. Commitments and Contingencies

Outstanding commitments on uncompleted construction contracts total \$8,009,000 at June 30, 2013.

All funds expended by Dartmouth in connection with government sponsored grants and contracts are subject to audit by governmental agencies. The ultimate liability, if any, from such audits, is not expected to have a material adverse effect on Dartmouth's financial position.

In conducting its activities, Dartmouth from time to time is the subject of various claims and also has claims against others. The ultimate resolution of such claims is not expected to have either a material adverse or favorable effect on Dartmouth's financial position.

L. Third-Party Charitable Trusts

As described in Note A, a split-interest agreement is a donor arrangement, such as a charitable trust, under which Dartmouth receives benefits that are shared with other beneficiaries. GAAP requires Dartmouth to report at estimated fair value its interest in an irrevocable split-interest agreement when Dartmouth is notified of an agreement's existence. When Dartmouth is not the trustee of the assets associated with a split-interest agreement, Dartmouth recognizes these assets only when notified of the existence of the trust and when reliable information about the fair value of its interest is provided by the third-party trustee. Dartmouth requests information regularly from third-party trustees for financial reporting purposes; however, these trustees are not obligated to provide Dartmouth with the information necessary to estimate fair value and record the asset. Dartmouth respects the privacy of donors and trustees in these limited instances.

As of June 30, 2013 and 2012, third-party trustees have not provided Dartmouth with sufficient information necessary to estimate the fair value of Dartmouth's interest in certain trusts. Dartmouth has not recorded an asset in connection with these trusts due to the uncertainty surrounding the potential value of Dartmouth's interest in these trusts as of June 30, 2013 and 2012. If Dartmouth's interest in these trusts were reflected on the Statement of Financial Position, Dartmouth's assets and net assets would be greater than the amounts reported in the accompanying financial statements.

M. Related Party Transactions

Members of Dartmouth's Board of Trustees and senior management may, from time to time, be associated, either directly or indirectly, with companies doing business with Dartmouth. Dartmouth has a written conflict of interest policy that requires annual reporting by each Trustee, as well as senior management. Additionally, Dartmouth has a policy on Pecuniary Benefit Transactions and Related Party Investments. This policy supplements the Dartmouth College Conflict Policy with regard to pecuniary benefit transactions, as defined by New Hampshire law, including but not limited to Dartmouth's investment in investment vehicles in which Trustees have a financial interest. These policies include, among other things, that no member of the Board of Trustees can participate in any decision in which he or she (or an immediate family member) has a material financial interest. When such relationships exist, measures are taken to mitigate any actual or perceived conflict, including

Notes to Financial Statements

requiring that such transactions be conducted at arm's length, for good and sufficient consideration, based on terms that are fair and reasonable to and for the benefit of Dartmouth, and in accordance with applicable conflict of interest laws.

N. Subsequent Events

For purposes of determining the effects of subsequent events on these financial statements, management has evaluated events subsequent to June 30, 2013 and through October 21, 2013, the date on which the financial statements were issued.
